Statement of family commitment:

“We understand that First Holy Communion is about bringing alive the loving relationship that each of us has with *Jesus Christ* and thinking about the special role that receiving Communion at Mass has in that relationship.

We are going on an important journey together as a family and as part of a wider community. We understand that the success of the programme, for everyone, will depend on each child's prompt attendance at the Saturday classes and other events-with an open heart, keen mind (and the right books, pens and pencils). Equally important will be our full involvement as a family, in discussions, exercises and prayer at home and throughout the course as well as parental attendance at the various relevant meetings and of course, regular attendance at Mass.”
